

PROPERTY TAXES · DUVAL COUNTY

Bought a home this year?

Your tax bill might surprise you.

THE SHORT VERSION

The seller had a cap.

You don't. Yet.

Florida limits how much a homesteaded home's assessed value can rise each year: 3% or inflation, whichever is lower. After years in the home, the seller's taxes were based on a much lower number.

WHAT CHANGES WHEN YOU BUY

The cap resets.

On January 1, the home is reassessed at market value.

That's why your bill can be much higher than the seller's was. Budget with your purchase price, never the seller's old tax bill.
